Capability Statement

With over 20 years experience delivering technology solutions to meet our customers' ICT requirements, Logi-Tech Pty Ltd has the ability to assist large and small organisations with their technology requirements.

Our highly qualified engineers ensure we deliver practical experience with real outcomes towards ever-changing, ever evolving technical demands across today's advanced hardware and software systems.

We pride ourselves on being able to deliver highly skilled and motivated technical assistance to your organisation. Our areas of expertise include Citrix, VMware and Microsoft. We have several fully trained and accredited Microsoft MCITP, Citrix CCA/CCEA/CCIA, VMware and EMC storage technicians based locally in South Australia.

Logi-Tech boasts high level client partnerships including the invitation only Citrix Platinum Partner, IBM Business Partner, Microsoft Gold Certified Partner, EMC Velocity Partner and VMware Authorized Consultants. These partnerships ensure we consistently deliver up to the minute technology solutions to our clients such as the DSTO and Adelaide Brighton Ltd.

Our success has been founded on our ability to make informed, rapid decisions, accessibility of our senior people and the required technical skills local to your organisation. This is combined with the ability of our team to identify potential issues by aligning ourselves in a partnership with you.

We ensure through close communication, proof of concept services and user acceptance testing that you are completely satisfied with our solutions. We maintain a strong relationship with you by holding regular scheduled meetings to discuss your business requirements now and into the future.
